10. Are there sheets or similar materials (e.g., blankets, bedspreads) present in the seclusion rooms? (The presence of sheets or blankets in a seclusion room where beneficiaries are NOT restrained poses a potential risk to patient safety.

12. Are there “quiet rooms” which patients can use when they wish to have a reduced level of stimulation?			
13. Where does staff interview/assess patients? Where does staff provide crisis intervention to patients?			
14. What procedures are in place when a patient experiences a medical emergency? How is medical emergency defined? Are there procedures which describe how a distinction is made between an emergency requiring attention by the on-call physician and an emergency requiring a call to “911”? Who is authorized to make this determination?			
15. What procedures are in place to handle a psychiatric emergency which is beyond the scope/capability of the CSU or its staff? For example, what would be done with a patient who became seriously assaultive when all of the seclusion/restraint rooms were in use?
