Re: July 1, 2022 CalAIM Documentation Reform

California Advancing and Innovating Medi-Cal (CalAIM) Documentation Reform takes effect on July 1. This reform is to provide lean documentation standards to enable staff to spend less time on charting and more time with clients.

To prepare for these changes, the Department of Health Care Services (DHCS) has partnered with California Mental Health Service Authority (CalMHSA) to provide Web-Based Documentation Training Videos and Documentation Guides for both Specialty Mental Health (SMHS) and Substance Use Services (SUS) providers.

[California Mental Health Services Authority | Documentation Guides \(calmhsa.org\)](https://calmhsa.org)

[California Mental Health Services Authority | Documentation Trainings \(calmhsa.org\)](https://calmhsa.org)

BHRS SUS will provide SUS Documentation training on **June 16, from 11-12am**. This will also be recorded. [Annual DMC-ODS Training](#)

BHRS Quality Management will provide SMHS Documentation training and review changes in Clinicians Gateway on **June 23, from 3-5pm**. This will also be recorded. [BHRS SMHS Documentation training zoom link](#)

Links to these recordings will be sent out after the trainings.

Please complete the online CalMHSA documentation trainings no later than July 15. Supervisors will be responsible for staff completion of these trainings.

Staff are expected to either attend the appropriate (SUS or SMHS) BHRS Documentation training or view the recorded training by July 15.

Please email BHRSQM@marincounty.org with any questions.

Thank you!
